We can use some help for a couple of days. TAGA is delayed and can't get here until Tuesday or Wednesday. Priority will be Houston. We have monitors up in Corpus. Beaumont/Port Arthur is in need. A couple of days of data will help greatly.

Sam,

I think we can access the MAML via invitational travel. LDEQ had requested that we send them something that states we will cover "everything". I mentioned that payroll would be more complicated, but we could cover lodging, per diem and fuel associated with the travel and actions via invitational travel. It might be a good idea for you to send an email to Dr. Brown thanking him for his assistance and explaining that we will be using invitational travel to cover fuel, lodging and per diem. In addition, we would need their assistance through Thursday (9/7). If he is agreeable, we need the name and number for each traveler and the starting location for each traveler. Once we have names and numbers, we will contact them directly.

Thanks,
Ronnie

Subject: Information Requested for LDEQ Invitational Travel

Hi Ronnie,

We need the following information from LDEQ in order to initiate invitational travel:

- We need the number of LDEQ employees that are requesting travel. We also need name and phone number for each traveler. The finance team will contact them directly in order to initiate the travel process and explain travel cost reimbursement.
- We need the travel dates for each employee, start and end dates.
- We need to know the travel starting location and destination (traveling from where to where?)
- The invitational travel will only cover lodging and per diem at the destination GSA rate, and fuel related to the vehicle's travel.

If there are any questions I can be contacted at 214-665-9705
